**Re: Request to Include Alternate Delta Plan as a Project Alternative in the EIR**

Dear Chairman Isenberg:

A coalition of agencies and organizations representing the interests of water agencies, businesses, and farms from throughout the state submitted an Alternate Delta Plan to the Council on June 10, 2011, and requested that the Council include the Alternate Delta Plan as a project alternative in the draft environmental impact report for the Delta Plan.

The Three Valleys Municipal Water District (TVMWD) has had a chance to review the Alternate Delta Plan and we fully support its inclusion as a project alternative in the draft EIR. The Alternate Delta Plan lays out a truly comprehensive approach to achieving the co-equal goals that we believe warrant full discussion by the Council.

We believe including the Alternate Delta Plan as a project alternative in the draft EIR will ensure the Council has a complete range of options to consider as it formulates the final Delta Plan by the Jan. 1, 2012, deadline.

Accordingly, we request that the Council include the Alternate Delta Plan in its entirety as a project alternative in the draft EIR for the Delta Plan.

We remain committed to working with the Council as a partner in developing a plan that can further the achievement of the co-equal goals of ecosystem restoration and water supply reliability.

If you have any questions or comments regarding our request, please feel free to contact me at 909-621-5568.

Sincerely,

Rick Hansen, P.E.  
General Manager  
Three Valleys Municipal Water District
